ABOUT THE WHITEFISH BAY GARDEN CLUB

The Whitefish Bay Garden Club was founded in 1958. Since its inception, the club has partnered with other local organizations to accomplish civic projects. Today, the club is comprised of 35 members who are residents or former residents of Whitefish Bay, and who aim to stimulate local interest in horticulture, beautify civic gardens, develop home gardens, and protect the village's natural surroundings. The club's members volunteer their time and expertise to serve their motto: "Growing a Greener Village - One Garden at a Time."

The Whitefish Bay Garden Club meets on the second Tuesday of each month from September through June at 7:00 p.m. Most meetings are held at the Whitefish Bay Village Hall, with speakers addressing topics about gardening and sustainability. Many of these discussions are open to the public.

The Garden Club invites you to visit their website at www.WhitefishBayGardenClub.weebly.com, or "like" them on Facebook at www.facebook.com/pages/WhitefishBayGardenClub

Support the Whitefish Bay Butterfly Garden at Cahill Park Square

Located in Cahill Park Square in beautiful Whitefish Bay, Wisconsin, the butterfly garden provides a hands-on educational opportunity for children and adults alike to appreciate and learn about butterfly habitats and Wisconsin native plants.

MAINTAINED BY THE WHITEFISH BAY GARDEN CLUB

"Growing a greener village..."

One garden at a time."

WHAT IS A BUTTERFLY GARDEN?

Butterflies are some of the most beautiful and interesting creatures on Earth. Many natural butterfly habitats have been lost to human activities like building homes, roads and farms, so a Butterfly Garden is meant to attract and retain butterfly populations.

The plants in the Whitefish Bay Butterfly Garden have been selected for their attractiveness to butterflies, birds and human visitors alike. To encourage butterflies to visit, there are brush piles, shallow water puddles, stones warmed by the sun for resting places, and plants that feed both caterpillars and adult butterflies. Rocks line the perimeter of the garden, defining its borders and the garden is densely planted with perennial, annual and native plants. It is especially important to have flowers in mid to late summer, when most butterflies are active.

MAINTAINING THE BUTTERFLY GARDEN

The Cahill Park Butterfly Garden has become a labor of love for members of the Whitefish Bay Garden Club, who adopted the garden from the Village in 2012. The garden is tucked between the playground and the fence along the south side of Cahill Park.

Restoration to date has included removing invasive plants, refreshing the soil with compost, adding plants from Garden Club members' gardens, and incorporating colorful annual plants. Plants are identified with individual markers, and educational signs will soon be installed describing the ideal habitat to attract and sustain butterflies. An engraved bench with a memorial to long-time Whitefish Bay residents, The Heinrich Family, rests in one corner of the garden, inviting visitors to relax and enjoy the beauty around them.

WHITEFISH BAY BUTTERFLY GARDEN CELEBRATION STONES

As all gardeners know, gardens are a work in progress, requiring regular attention to remain healthy and attractive. A gift of \$75.00 enables Whitefish Bay residents, friends and family to have an engraved Celebration Stone placed around the border of the Butterfly Garden, or delivered to your home for use in your own garden.

The smooth, natural stones are approximately 10 inches in diameter and vary in color (see examples below, and on the extra order form on the back of this brochure).

Please print your engraving information exactly as you would like it to appear on the Celebration Stone, on the form to the right (limit 40 characters, including spaces). If you are ordering more than one Celebration Stone, please use the extra order form on the back flap.

Please make checks payable to:
